JUDGE BARR decided that the Separate Coach law is unconstitutional solely on the ground that it interferes with inter-State commerce.

THE candidate for Congress in the Ashland district from Owen County ought to be able to settle the differences dividing the Democrats of that district.

SOME of Frye's hobos who were here week before last were offered \$3 a day to mine coal back of Parkersburg this week. They are still tramping on to Washington to induce Uncle Sam to give them work.

MR. GEORGE TAYLOR, of Washington, is a candidate for the important office of Magistrate in that district, and flatters himself that he has some claim on the Democratic party, as he has been, as it were, a private in the ranks all these years. He asks his friends to consider his claims in the light of the services he has done his party and give him their support.

WEEKLY CROP REPORT.

Favorable Conditions Have Caused Improvements—Wheat Harvest Will Soon Begin.

Taken as a whole the weather conditions of the past week were more favorable to crops than those of the two preceding ones. The average temperature was slightly less than the normal, the deficiency being caused by the cool days of the early and middle parts of the week. Since Saturday there has been a large excess and temperatures as high as 96° were reported from several points in the State on Sunday and Monday. Clear weather has generally prevailed, and the amount of sunshine was therefore in excess of the average. No rain of a general character has occurred; some moderately heavy showers are reported from the western and southern counties during the early part of the week. The general tenor of reports of correspondents indicates that an improvement in nearly all crops has resulted from the conditions named, and had more rain fallen no better weather could have been desired.

Owing to the conflicting character of reports concerning the prospects for wheat it is very difficult to estimate what is its average condition. Many correspondents state that there will not be more than half a crop in their respective counties, while others report that the outlook is for a nearly average yield. It will not probably be known with any degree of accuracy to what extent the crop suffered from the snow and cold until it is harvested. Cutting was begun this week in the western counties, and within the next ten days the work will be under general headway in all sections of the State.

Corn, though not up to the standard condition for the season, was, generally speaking, much improved during the week. The dry weather has permitted it to be very thoroughly cultivated, and it is therefore unusually free of weeds and grass. The high temperatures of the past few days has hastened its growth, though it would be further assisted by a good rain.

About three fourths of the tobacco plants have been set, much progress having been made with the work during the week, in those sections which were favored with rains. The early planted portion of the crop looks well, but the setting of the last ten days is not so favorable in appearance. By the end of this week the last of the crop will be planted.

Meadows and pastures look poor and are suffering for rain. In some localities pasture is so short that farmers are feeding their stock.

Oats, though very short in quantity, are reported to be of excellent quality. The outlook for fruit has not changed since last report.

Death of Mrs. Charles Savage.

Germantown mourns the death of one of her noblest christian women. The wife of Dr. Charles Savage passed away at midnight Monday night, in the fifty-eighth year of her age. She was stricken down with pneumonia several days before. The attack was a severe one from the first, and she finally succumbed to the disease.

Deceased was a sister to Mr. John R. Burgess, ex-Assessor of Mason County, and was a woman whose lovely christian character won her the respect and admiration of all who knew her. Her husband survives and she leaves two children, Mrs. Mary Pepper, of Germantown, and Dr. Harry Savage, of Galena, Kan.
